Portfolio Website

PROFESSIONAL SUMMARY

Motivated and detail-oriented **Full-Stack Web Developer** with hands-on experience building dynamic web applications, administrative management systems, and e-commerce platforms. Proficient in PHP, MySQL, JavaScript, Bootstrap, and HTML/CSS. Experienced in freelance development, translating client requirements into scalable web solutions.

FEATURED PROJECTS

OmniTools – Smart Tools & AI Platform

Live Demo

- Developed an all-in-one web platform providing smart utility tools and AI service integrations.
- Engineered a fast, responsive user interface designed for high usability and low latency.

Mobile Store Management Pro

Live Demo

- Built an administrative inventory and management dashboard tailored for mobile retail stores.
- Implemented dynamic relational database structures for product tracking, sales, and analytics.

Phone Sales & Comparison System

Live Demo

- Created a feature-packed web application for displaying, filtering, and comparing phone models and prices.
- Designed smooth backend search logic and interactive specification side-by-side matrices.

Spectra Mobile Store (E-Commerce)

Live Demo

- Architected a complete online storefront for mobile products with product catalogs and checkout UX.
